Summary

Cloud Operations & Infrastructure leader with a proven track record of leading high-performing teams to ensure uptime, scalability, and operational efficiency. Expert in incident management, driving resiliency, automation, and rapid issue resolution to minimize downtime.

Key Achievements

- Cut infrastructure costs by 30–50% through full AWS migration, leveraging cloud-native services, automation, and cost optimization strategies.
- Implemented zero-downtime database deployments (ZDT), ensuring a near 24/7 Payments Platform with frequent, safe releases and minimal downtime.
- Scaled team from 15 to 22 globally, transforming on-prem specialists into cloud-native, DevOps-driven experts, including Staff Engineers and Managers.
- 15+ years of DBA expertise, specializing in database performance, reliability, and automation.
- Built a unified incident management process, improving ops and leadership insight.

Experience

BILL.com – San Jose, CA (2013 – Present)

Director, Cloud and Infrastructure (08/2023 – Present)

- Led the transformation of BILL.com's cloud infrastructure, supporting its explosive growth from a small startup to a multi-billion-dollar public company.
- Ensured 99.99% uptime by driving AWS infrastructure strategy, focusing on scalability, high availability (HA), disaster recovery (DR), and security.
- Strengthened Availability Zone (AZ) resiliency and optimized storage with containerization and cloud-native services.
- Optimized AWS costs, leveraging RDS Reserved Instances, Spot Instances, and storage tiering, achieving 40-60% savings.
- Transformed a cross-functional team of 20+ engineers (SREs, DBAs, network, and cloud infra) into a cloud-native, DevOps-driven organization.
- Spearheaded engineering-wide training initiatives, enhancing observability, automation, and operational efficiency.

Senior Manager, Production Infrastructure (02/2022 – 08/2023)

- Led migration from four data centers to AWS, replatforming 15+ years of data with under 10 minutes of downtime.
- Managed SRE, DBA, Network, and Storage teams, driving automation, reliability, and incident management.
- Modernized infrastructure for scalability and efficiency, leading cost optimization initiatives.
- Scaled and mentored a team of 12 engineers, fostering a high-performance, resilient culture.
- Built a unified incident management process, improving ops and leadership insight.

Manager, Database & Storage Systems (09/2020 – 02/2022)

- Implemented Oracle Active Data Guard for cross-data center replication, enhancing database resiliency.
- Architected BILL.com's GoldenGate-based data replication strategy, now the backbone of business continuity.
- Led a team of five engineers, driving database performance, automation, and high availability.

Staff Database Administrator (2013 – 2020)

- Specialized in database performance, reliability, and automation, ensuring high availability and optimal efficiency.
- Architected BILL.com's GoldenGate-based data replication strategy, now the core technology for business continuity.
- Implemented Oracle Active Data Guard for cross-data center replication, strengthening database resiliency.

Database Experience

Oracle DBA (Jr. to Staff), Various Companies including Apple, Charles Schwab, eMeter (1999 – 2020)

- 20+ years of DBA expertise, specializing in database performance, reliability, and automation.
- Architected BILL.com's GoldenGate-based data replication strategy, now the core replication technology for business continuity.
- Implemented Oracle Active Data Guard for cross-data center replication, enhancing database resiliency.
- Led database performance tuning, high availability, and large-scale migrations at Apple, Charles Schwab, and eMeter before transitioning into infrastructure leadership.

Education

Bachelor of Science in Computer Science

San Francisco State University – San Francisco, CA
